PROFESSIONAL SUMMARY

Software Engineering student with strong foundations in **Data Structures, Algorithms, and Object-Oriented Programming**. Experienced in building scalable applications using **Java, Spring Boot, and the MERN stack**. Passionate about solving real-world problems, designing efficient backend systems, and continuously improving through hands-on projects and coding practice.

EDUCATION

- **B.Tech in Information Technology** 2023 – Present
SRKR Engineering College, Bhimavaram CGPA: 9.31

TECHNICAL SKILLS

- **Programming:** Java, Python, C, JavaScript
- **Core CS:** Data Structures, Algorithms, Object-Oriented Programming, DBMS
- **Technologies:** Spring Boot, React.js, Node.js, Express.js, MongoDB, MySQL
- **Tools:** Git, GitHub, VS Code, Eclipse

INTERNSHIP EXPERIENCE

- **Java Developer Intern** Aug 2025 – Oct 2025
Infosys Springboard 6.0 Remote
 - Developed an Automated Testing Framework using **Java, Spring Boot, Selenium WebDriver, and MySQL** for scalable **UI and API regression testing**.
 - Implemented **parallel test execution** using **Spring Async** and scheduled automated runs with **Quartz Scheduler**.
 - Built execution dashboards and exportable reports (**CSV, Excel, HTML**) to analyze test trends and failure patterns.
 - Achieved an average automated test case pass rate of **80%**, improving early defect detection and test reliability.

PROJECTS

- **Virtual Training & Placement Portal – MERN Stack** 🌐 Code
 - Developed a full-stack training and placement management system using **MongoDB, Express.js, React.js, and Node.js**.
 - Implemented **JWT-based authentication** and **role-based access control** for students and administrators.
 - Enabled real-time notifications using **Socket.io** and integrated **AI-powered chat and quiz assistants** via **Groq Llama API**.
- **Campus Alumni Hub – React + Spring Boot** 🌐 Code
 - Developed a scalable alumni management platform improving onboarding efficiency for **500+ alumni**.
 - Built backend services using **Spring Boot** with **MVC architecture** and **REST APIs**.
 - Implemented **role-based authentication and authorization** for **Admin, Staff, Student, and Alumni**.
 - Developed **REST APIs** for alumni registration, role management, and communication workflows.
 - Integrated a **PostgreSQL database** with secure validation and structured data access.

ACHIEVEMENTS

- Solved **300+ Data Structures and Algorithms problems** on LeetCode.
- Selected as an **AFE Scholar** under the AFE Zuvy Bootcamp program.
- Executive Body Member of **CSI Student Chapter**.
- Volunteered at **Quantum Valley Hackathon Semi-Finals** at SRKR Engineering College.
- Secured **1st place for Academic Excellence** in 2nd Year IT Department.
